

# SCANDINAVIAN PROFILES

## CEILING TILES

Mineral Fibre Ceiling Tiles are a high quality ceiling solution found in most commercial buildings. We can match or recreate almost any tile using custom edge detailing, face machining and repainting.

Generally you will see them in the basic lay-in or concealed form due to the specialty tiles no longer being available from the manufacturers – that's where we come in!

We work closely with Renhurst, USG Boral, Armstrong, CSR Ceilector, Ceilings by Design and Grayking Interior Supply; so don't hesitate to call and discuss your needs.

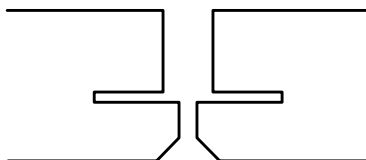

### Ceiling Tile examples

- Customised patterns
- Tegular light tiles
- Imperial tiles
- Concealed tiles

### Face machining

- Striped tiles
- Second look
- Hi style
- Patterns
- Customised designs

**Concealed grid systems** are designed to conceal the grid creating a seamless lineal look.

**K2C2**

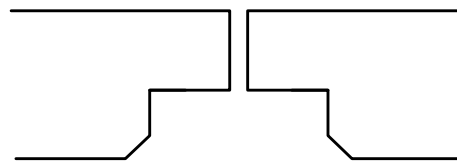

**S-LAP**  
SHIPLAP

**Lay in ceiling tiles** allow panels to be easily lifted out of the grid by hand, giving full access to the ceiling void. The grid is exposed, creating a shadow between tiles.
